

**Are you Over 60?
Have you done your test
for Bowel Cancer?**

1 in 20 people will get bowel cancer in their lifetime.

8 out of 10 people diagnosed with bowel cancer are over 60.

Bowel cancer screening is free for all aged 60 to 74.

Screening is important, because if detected early, the treatment is likely to be successful and the chance of survival is more than 90 %.
